JULY 12th, 2023

The 1st concert of the season for Music in the Park featured Lulus Band and was a perfect evening by the water at Bayview Park. The local kayaking group joined in from the water side. Music continues till Sunday August 20th from 6-8pm www.musicinthepark.ca

Official Plan Review - POSTPONED

THE BLUE PRINT OFFICIAL PLAN REVIEW

The Town would like to advise residents that the Public Workshops scheduled for July and August 2023 as part of Phase 2 of the Official Plan Review project have been postponed. At Council's direction, the workshops will be rescheduled to Fall 2023 to allow for an enhanced level of public participation and ensure sufficient time to review the Background Papers associated with Phase 2. The Town is committed to ensuring strong community engagement and will also be considering additional engagement opportunities in the Fall.

The Official Plan Review Public Survey remains open throughout the summer and the first seven Background Papers are available on the project webpage, with the remaining four papers to follow later this month.

When rescheduled, the Public Workshops will consider the Background Papers, which take a closer look at critical topics that emerged through Phase 1 by providing research and supporting data, considering previous comments received and providing options and recommendations for updating the Town's existing policies.

For more information or to subscribe for project updates, please visit the project webpage www.thebluemountains.ca or contact:

Shawn Postma, MCIP RPP,
Manager of Community Planning, (519) 599-3131 ext. 248

An official plan describes your upper, lower or single tier municipal council or planning board's policies on how land in your community should be used. It is prepared with input from your community and helps to ensure that future planning and development will meet the specific needs of your community.

An official plan deals mainly with issues such as:

- where new housing, industry, offices and shops will be located
- what services like roads, watermains, sewers, parks and schools will be needed
- when, and in what order, parts of your community will grow
- community improvement initiatives

An approved official plan can be reviewed at any time, but each local council is required to update its official plan not less than 10 years from the date the plan came into effect in the case of a new comprehensive official plan. For The Blue Mountains it was in 2016. In situations where an official plan is not being replaced in its entirety, it should be updated at least every five years. This ensures the plan is consistent with the Provincial Policy Statement and that it conforms and/or does not conflict with provincial plans, as required.

Council approves the purchase of 496015 Grey Road 2 in the amount of \$1,500,000

from Staff Report

The Ravenna Roads Yard is the main Operations Facility for the Roads Division. This facility has been the subject of a long-standing Capital Project. One of the ongoing concerns identified through the internal review of this project is how to expand the facility to meet long-term needs within the constraints of the property, and while not impacting the Ravenna Hall, Cenotaph, and surrounding greenspace that is critically important to the community.

Staff recommend that the opportunity to purchase this property is beneficial for both short term planning for the facility expansion and the long-term continued operations of the facility.

The property consists of 3.48 acres, and has one (1) residential dwelling and one (1) outbuilding.

continued on page 2

Blue Mountain Resort proposes Staff Accommodation

The proposal would feature 258 dorm-style rooms, 41 suites, 140 restrooms, 37 kitchens and common space as well. The buildings would be five storeys at an approximate cost of \$40million and built on property owned by the Resort at Scenic Caves Road and County Road 19.

The resort relies on 200-250 foreign workers and another 150-200 international travellers to staff its operations and currently arranges housing in the area. During the peak winter season the resort has a total of 1,800 employees and in the summer that number is approximately 1,200 people.

The dorms would serve International Workers who stay for 1-2 years, Seasonal Canadian Workers who usually stay for 1-2 seasons and year round Canadian Workers who stay 1+ years.

Purchase of Land - Continued from front page

Short-Term

With the benefit of consultation with internal staff, this opportunity would allow Operations staff to continue operating while also maintaining equipment on the site, and potentially out of the current facilities during the construction period. Staff had suggested, through the 2023 budget discussions, that Operations staff could be impacted for a total of eighteen (18) months. This property also allows for staff to consider a design and operational layout for the expansion project. Currently, the existing facility site has significant limitations due to the range of elevations and contours, and its proximity to the Ravenna Hall, Cenotaph, and Community Park.

Ultimately, the additional property would shift the bulk of the expansion project to the north and provide additional buffering from the Community Park area.

Long-Term

Staff suggest that the subject property provides the opportunity to expand the current facility while not being constrained by existing property limits. Staff also acknowledge the benefits of having the current owner of 496015 Grey Road 2 as a neighbour. The main facility has a minimum setback from the north property line of 2.91 meters on the west edge of the building and is 6.11 meters at the east edge of the building and is separated from the property by sparse trees and a wire fence. Purchasing this property would eliminate a close proximity neighboring property from being located directly adjacent to the facility.

Additional Parking Opportunities

Staff suggest that the additional lands could provide additional parking for the Ravenna Hall, Cenotaph, and the Community Park while also providing a centralized location for cyclists parking in the Spring, Summer, and Fall. Ravenna Hall has approximately six (6) off-road parking spots, however, no marked parking due to the area being gravel. The parking area is also the location of the Ravenna Canada Post centralized mail location and houses a portable toilet for periods when the Ravenna Hall well has a limited water supply. Ravenna is known to see a significant amount of cyclist traffic.

There are few locations where cyclists have marketed access to an actual formalized parking lot. Staff suggest that this location would be identified as paid parking lot and could include amenities to support cyclist needs, and could also be a good location for an electric vehicle charging station. Ravenna, with its connection to Grey Road 2 and Grey Road 119, sees significant traffic going to and from Blue Mountain Resort and the Thornbury area. Staff suggest that there has been, and will continue to be, an increase in electric vehicle use in this general area and this location may provide a failsafe opportunity to those who may not have planned accordingly and may also serve cyclists charging vehicles while they are riding. These are all potential opportunities that Council may wish to consider to enhance the current use and limited potential of the current site.

GBPH Reminds Residents That Smoking, Vaping Prohibited Near Sports Fields, Playgrounds, Rec Centres

With summer well underway and the outdoor sports season in full swing, Grey Bruce Public Health would like to remind residents about the laws regarding smoking and vaping. It is important to know that both smoking and vaping are strictly prohibited on or near sports fields, playgrounds, or skateparks.

The Smoke-Free Ontario Act prohibits smoking and vaping in all enclosed public places and designated outdoor spaces. These regulations are in place to safeguard individuals from the harmful effects of second-hand smoke.

“Many organized sports were cancelled or scaled back during the COVID-19 pandemic and limits were placed on the number of spectators permitted along sidelines and in the stands. With all pandemic-related public health measures now lifted – and the outdoor sports season essentially back to normal – we feel it’s a good time to remind parents, players, and others of the rules related to smoking or vaping at certain outdoor public places,” says Dr. Rim Zayed, Physician Consultant at GBPH.

The Smoke-Free Ontario Act bans smoking or vaping:

- On children’s playgrounds and public areas within 20 metres of a playground;
- On publicly owned sporting areas, their spectator areas, or public areas within 20 metres of these places;
- On the grounds of community recreational facilities, such as arenas, pools, and gyms, and on public areas within 20 metres of those grounds; and
- Within 20 metres of a school property.

The Act defines smoking as inhaling or exhaling either commercial tobacco or cannabis (medical or recreational) products or holding lighted tobacco or cannabis products. Vaping means inhaling or exhaling vapour from an electronic cigarette or holding an activated e-cigarette, even if the vapour does not contain nicotine.

Tobacco enforcement officers, employed by Grey Bruce Public Health, are designated to enforce Smoke-Free Ontario Act regulations.

The dangers associated with second-hand smoke are a significant public health concern. Children are among the groups that are particularly at risk of negative health effects from second-hand smoke.

“There is no safe level of exposure to second-hand smoke,” says Dr. Zayed. “Grey Bruce Public Health is dedicated to protecting the health of everyone in Grey-Bruce and this includes working to safeguard children and youth from the harmful, cancer-causing chemicals in second-hand smoke.”

Anyone with questions related to the Smoke-Free Ontario Act can contact Grey Bruce Public Health at 519-376-9420 or 1-800-263-3456 ext. 1211.

GBPH also provides resources and support for people who wish to quit smoking or vaping. More information is available on Grey Bruce Public Health’s Quitting webpage.

Grey County Asking Residents For Input On Corporate Strategic Plan, Survey Closes July 31

Grey County is updating its multi-year corporate strategic plan and is looking to residents to identify their top priorities for the next four years. A public survey is now available online at www.grey.ca/strat-plan. All responses will be kept confidential and the survey will close on July 31. A strategic plan helps Grey County set goals to guide operational planning and spending. Public input is an important step in the process to ensure these goals align with the needs of the community. Grey County provides a range of services to more than 100,000 residents, thousands of businesses, and millions of annual visitors. Some of these services, like road construction and maintenance or land-use planning are similar to services provided at the local municipal level. Most services, however, focus on providing essential support for vulnerable people in the community such as social housing, paramedic services and long-term care homes.

Several recent plans, reports to County Council and stakeholder outreach will also help inform the new plan.

Visitors to Eugenia Falls Conservation Area need to Be Safe and Be Prepared

Following a recent incident at Eugenia Falls Conservation Area where Emergency Services were called to assist a visitor who was injured while travelling to a strictly prohibited area, Grey Sauble Conversation Authority and Grey Highlands are cautioning the public on the dangers and consequences of trespassing to out-of-bounds areas at this property. It is also advised that those planning a trip here are appropriately prepared for their safety and the safety of others.

GSCA has increased safety measures at Eugenia Falls, including the installation of over 100' of additional barrier fencing and more signage to try to stop people from accessing the top of the waterfall, the bottom of the waterfall, and the adjacent cliffs, which are out of bounds. Climbing these fences, crossing barriers, or travelling beyond official GSCA trails and viewing areas to access the waterfall is dangerous and not permitted. Trespassing in these out-of-bounds areas may result in fines of up to \$1,000 under the Trespass to Property Act. Visitors to Eugenia Falls Conservation Area should be prepared by wearing proper footwear for hiking and packing a cell phone that is fully charged and has the **What3Words** app installed on it, which can help emergency services locate users if they become lost on a trail. To enjoy a safe trip to this property, do not visit under the influence of drugs or alcohol.

The Municipality of Grey Highlands would also like to remind the public that non-residents will be invoiced for emergency or rescue services which could cost anywhere from \$5,000 - \$20,000.

GREY BRUCE
We're here for good.

Our goal is for everyone in Ontario to have access to reliable high-speed internet and cellular connections at home, work and in our communities. We are making an investment of nearly \$4 billion to help bring high-speed internet access to every community across the province by the end of 2025.

The following internet service providers will help connect up to 266,000 unserved and underserved homes and businesses in as many as 339 municipalities across Ontario. Municipalities, provincial funding, and the number of unserved and underserved homes and businesses are subject to change based on final agreements.

Ontario Expanding Self-Serve Online Vehicle Registration

Used car dealerships can now register vehicles and issue licence plates right from the showroom.

The Ontario government is making it easier and more convenient to buy and sell vehicles. The province is expanding the online Digital Dealership Registration (DDR) system to include used cars. Now, new and used vehicle sales can be registered online by dealerships participating in DDR.

“Our government created Digital Dealership Registration to help business save time and money by making it easier to sell and purchase a vehicle in Ontario – and now used cars are included with this new, exciting expansion to the system,” said Kaleed Rasheed, Minister of Public and Business Service Delivery. “Providing self-serve vehicle registration to car dealerships is a win for businesses and a win for consumers who can drive their car right off the lot.”

Launched in March 2022, DDR was first made available for new car registrations, then for trade-ins and now, DDR enables registrations for used cars. Participating dealerships complete online registration of passenger vehicles with ServiceOntario and issue permits and licence plates immediately to the purchaser. The system provides more accurate and error-free registrations with reduced paperwork and protects the security and safety of data. No visit to a ServiceOntario centre is required, but in-person registration is still available for dealerships who choose this option.

“The Digital Dealership Registration initiative is an example of how technology can assist modern Ontario dealerships in business. Enabling car dealerships to register vehicles online and issue permits and licence plates directly to purchasers reduces paperwork, delays and red tape for dealers and consumers,” said James F. Hamilton, Interim Manager and Legal Services Director at the Used Car Dealers Association of Ontario (UCDA). “This government deserves recognition for bringing this project, with years of planning and piloting behind it, to fruition. The expansion of DDR to used vehicle dealerships, is a milestone the Used Car Dealers Association of Ontario is proud to be part of.”

“The Ontario government is shifting the Digital Dealership Registration program into high gear by expanding its services to include used vehicle transactions. Auto retailers can now save time and money when transacting used vehicle sales,” said Frank Notte, Director of Government Relations at the Motor Vehicle Retailers of Ontario (MVRO). “By eliminating paperwork and outdated processes, Ontario is cutting red tape and making the auto retail sector worthy of the digital age we live in. We are thankful Minister Rasheed is offering auto retailers more digital services to make it easier to do business and better serve Ontarians.”

“We are delighted to see the expansion of the Digital Dealership Registration initiative to include used car dealerships and their customers across Ontario,” says Maureen Harquail, CEO and Registrar of the Ontario Motor Vehicle Industry Council (OMVIC). “OMVIC regulates dealerships in Ontario with a focus on consumer protection

by maintaining a fair, safe and informed marketplace for motor vehicle sales. We are proud to support this initiative as it will not only make it quicker and easier for Ontarians to drive their new vehicle straight off the lot, but it will also reduce red tape and save time and money for dealerships which is a win-win.”

Quick Facts

- Since the launch of the online Digital Dealership Registration system, more than 4,200 transactions have been completed through DDR and more than 380 dealerships are registered currently, with more onboarding daily.
- More than 7,000 Ontario dealerships selling new and used passenger vehicles now have access to DDR.
- Dealership transactions account for 4.7 million of ServiceOntario's total 58 million annual interactions.
- To participate in DDR, dealerships must be registered with Ontario Motor Vehicle Industry Council (OMVIC) and meet regulatory and other criteria.

Cheetos® Launches Bold Mac & Cheese For Daring Canadians Who Ketchup & Mac

MISSISSAUGA, Ontario, July 12, 2023 (GLOBE NEWSWIRE) -- Canadians love mac & cheese and ketchup... but together? This is a long-standing debate. Or is it? In the lead-up to National Mac & Cheese Day this Friday, July 14, the Cheetos® brand is announcing its commitment to settle the score once and for all. Enter NEW Cheetos® Mac 'n Cheese Cheesy Ketchup flavour pasta with sauce. It's cheesy. It's ketchupy. And, frankly, it slaps. Maybe you don't agree, but then maybe you don't have as good taste as some of your fellow Canadians... According to a recent survey by the Cheetos® brand, nearly a quarter of Canadians (23%) who eat mac & cheese add ketchup.*

And if its new Cheesy Ketchup flavour isn't enough, the Cheetos brand is getting MuchMusic's help to put an end to the age-old ketchup on mac discussion. As a go-to source for candid, humorous pop culture discussions, MuchMusic is no stranger to playful debate. Introducing "Cheetos® S(mac)k Talk", a social media show from two much-loved brands, Cheetos and MuchMusic, during which popular MuchMusic VJs—Verdah Ansari, Georgia Kolev, Teddy Tong, and BarDown special guest, Sam Gliserman—will duke it out, Team Ketchup vs. Team Just Cheese, to reveal the winner.

"Canadians are passionate about their mac & cheese, and so is the Cheetos brand," said Logan Chambers, Senior Director of Marketing, PepsiCo Foods Canada. "New Cheetos Mac 'n Cheese Cheesy Ketchup may not be for everyone, and that's okay—the Cheetos brand is mischievous and is not afraid to defend an unpopular opinion. We know ketchup and mac & cheese are a perfect pair!"

To watch the VJs go toe-to-toe in the Cheetos S(mac)k Talk series, visit @Muchofficial on Instagram, and @Much on TikTok, YouTube and Twitter — the show will premiere this Friday, July 14! And if you're feeling adventurous, try some Cheetos Mac 'n Cheese Cheesy Ketchup as you watch the segments. Who knows, you may be pleasantly surprised!

About Cheetos®

Cheetos is a favourite Canadian snack brand under the Frito Lay Canada portfolio.

About PepsiCo Foods Canada

PepsiCo Foods Canada is comprised of the Frito Lay Canada and Quaker Canada businesses. The company employs over 6,000 Canadians with seven manufacturing plants and sales and distribution facilities from coast to coast. Frito Lay Canada is the country's largest snack food manufacturer and the company's brands include Lay's, Doritos, Tostitos, Ruffles, Smartfood and Cheetos. The Quaker brand portfolio includes a wide range of wholesome cereals, oatmeal, rice and corn snacks and snack bars, and features other prominent brands such as Quaker Life, Quaker Chewy, Quaker Harvest Crunch and Crispy Minis.

About PepsiCo

PepsiCo products are enjoyed by consumers more than one billion times a day in more than 200 countries and territories around the world. PepsiCo generated more than \$79 billion in net revenue in 2021, driven by a complementary beverage and convenient foods portfolio that includes Lay's, Doritos, Cheetos, Gatorade, Pepsi-Cola, Mountain Dew, Quaker, and SodaStream. www.pepsico.com.

THEATRE GEORGIAN BAY STORMS COLLINGWOOD'S SHIPYARDS AMPHITHEATRE WITH ITS PRODUCTION OF THE TEMPEST

Theatre Georgian Bay is thrilled to bring this family-friendly tale of magic and music outdoors to Collingwood's Shipyards Amphitheatre, 2 North Maple St., Collingwood. Our Bard on the Bay performances are offered to the community as a Pay-What-You-Will event, with a suggested donation of \$20.00 per person.

Please note all performances will run rain or shine unless it proves dangerous to do so. We suggest that you bring blankets, umbrellas, hats, sunscreen, jackets, cushions, chairs, or anything else you may need to make yourself comfortable and prepared for the weather. We encourage you to pack and enjoy your own refreshments.

July 27 & 28 - 6:00pm; July 29 - 2:00pm and 6:00pm; July 30 & 31, August 3 & 4 6:00pm; August 5 - 2:00pm and 6:00pm; August 6 & 7 6:00pm *Runtime is approximately 90 minutes with no intermission.

For more details about The Tempest, please visit the TGB website www.theatregeorgianbay.ca
